

Franciscans Partying Bible

I. Arranging things in the Square

We bought all the goods, commodities and music, even had a game to curate with. Franciscans were monks with a law book – they argued this is festive and fine.

II. Lecturing the Square

In fact, I wore suit and trousers and went to the Pope. I would wait outside on the phone.

III. Appearance

Appearance of Christ, “Matthew saw him appearing.” The sense can be tragic and bad, that makes it work of miracle, that is an Event – Christ to be interpreted as in fact. The monk went to his room, and caught hold of his geography map – he said this then is where I am, and where he is, imagined in the neighbourhood, I am prepared for the Vaticanism, I am in fact serious about this meeting – I have a whole thing in the plan – steps to follow –

Christ appears to Matthew (I:20) follow this law.
